

would favor a prior notice-and-wait obligation—rather than a prior approval power—with regard to those transactions.<sup>3</sup>

Despite my general inclination to believe a broad prior approval provision unwarranted when the parties have abandoned their planned transaction (as they did here), acceptance of a narrowly tailored prior approval provision is appropriate in the special circumstances of this case. Paragraph III of the proposed order merely requires respondents to seek prior Commission approval, over a three-year period, for essentially the same transaction that the Commission challenged in the first place. Given that a renewed Port Huron/Mercy consolidation would be likely to raise the same antitrust concerns, this narrow prior approval requirement is neither punitive nor redundant.

I also find acceptable the proposed order's 10-year prior notification requirement. This provision pertains only to (1) transactions in the narrowly defined "Greater Port Huron" that (2) exceed \$1 million yet (3) would not be reportable pursuant to Section 7A.<sup>4</sup> Where the Commission finds reason to believe that an acquisition would violate section 7, I consider it appropriate to require the respondent for some period of time to notify the Commission in advance of any proposed significant acquisitions in the relevant market that are not reportable under section 7A. That is all that Paragraph IV provides.
